Roche's Case Before the Parliament—Radical Attempts at Intimidation.

Paris, Jan. 16, 1870. In the Corps Legislatif, yesterday, M. Roche moved that the debate on the appointment of Deputy Roche be postponed until the 25th instant. M. Roche opposed the motion, and the Chamber decided that the debate should commence to-morrow, according to the original proposition of the Ministry, by a vote of 39 to 19.

The semi-official journals assert that the majority in both Chambers will support the Ministry in the prosecution of Roche. Several deputies have received anonymous letters menacing them with personal violence in case the Chamber authorizes the prosecution. The radical journals also threaten serious disorders should Roche's case be commenced.

Reported Surrender of Insurgents—Spanish Opposition to Reforms—Protests Against Proposed Reforms in Porto Rico—Marine Disaster.

Havana, Jan. 15, 1870. The *Gaceta* to-day publishes despatches from the interior announcing the surrender of insurgents in large numbers.

The Spanish troops in the Central Department are on the march to attack the insurgents. The Spanish mail steamer which sailed to-day took a memorial signed by thousands of Spaniards requesting the Cortes to defer the granting of liberties and reforms in Porto Rico. The document gives as a reason for this request that the granting of these privileges will prove highly injurious to the cause of Spain in Cuba, be used as a weapon against the Spaniards and weaken the power of the government. The residents of Cuba at present do not desire such reforms. The country is unprepared to receive them, and the people prefer to wait until Cuba is represented in the Cortes.
